

Supplement IV  
(excavation plan, cf. survey Fig. 42)  
with: R.-D. Kahlke,  
Untermaasfeld – A late Early Pleistocene  
(Epivillafranchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series

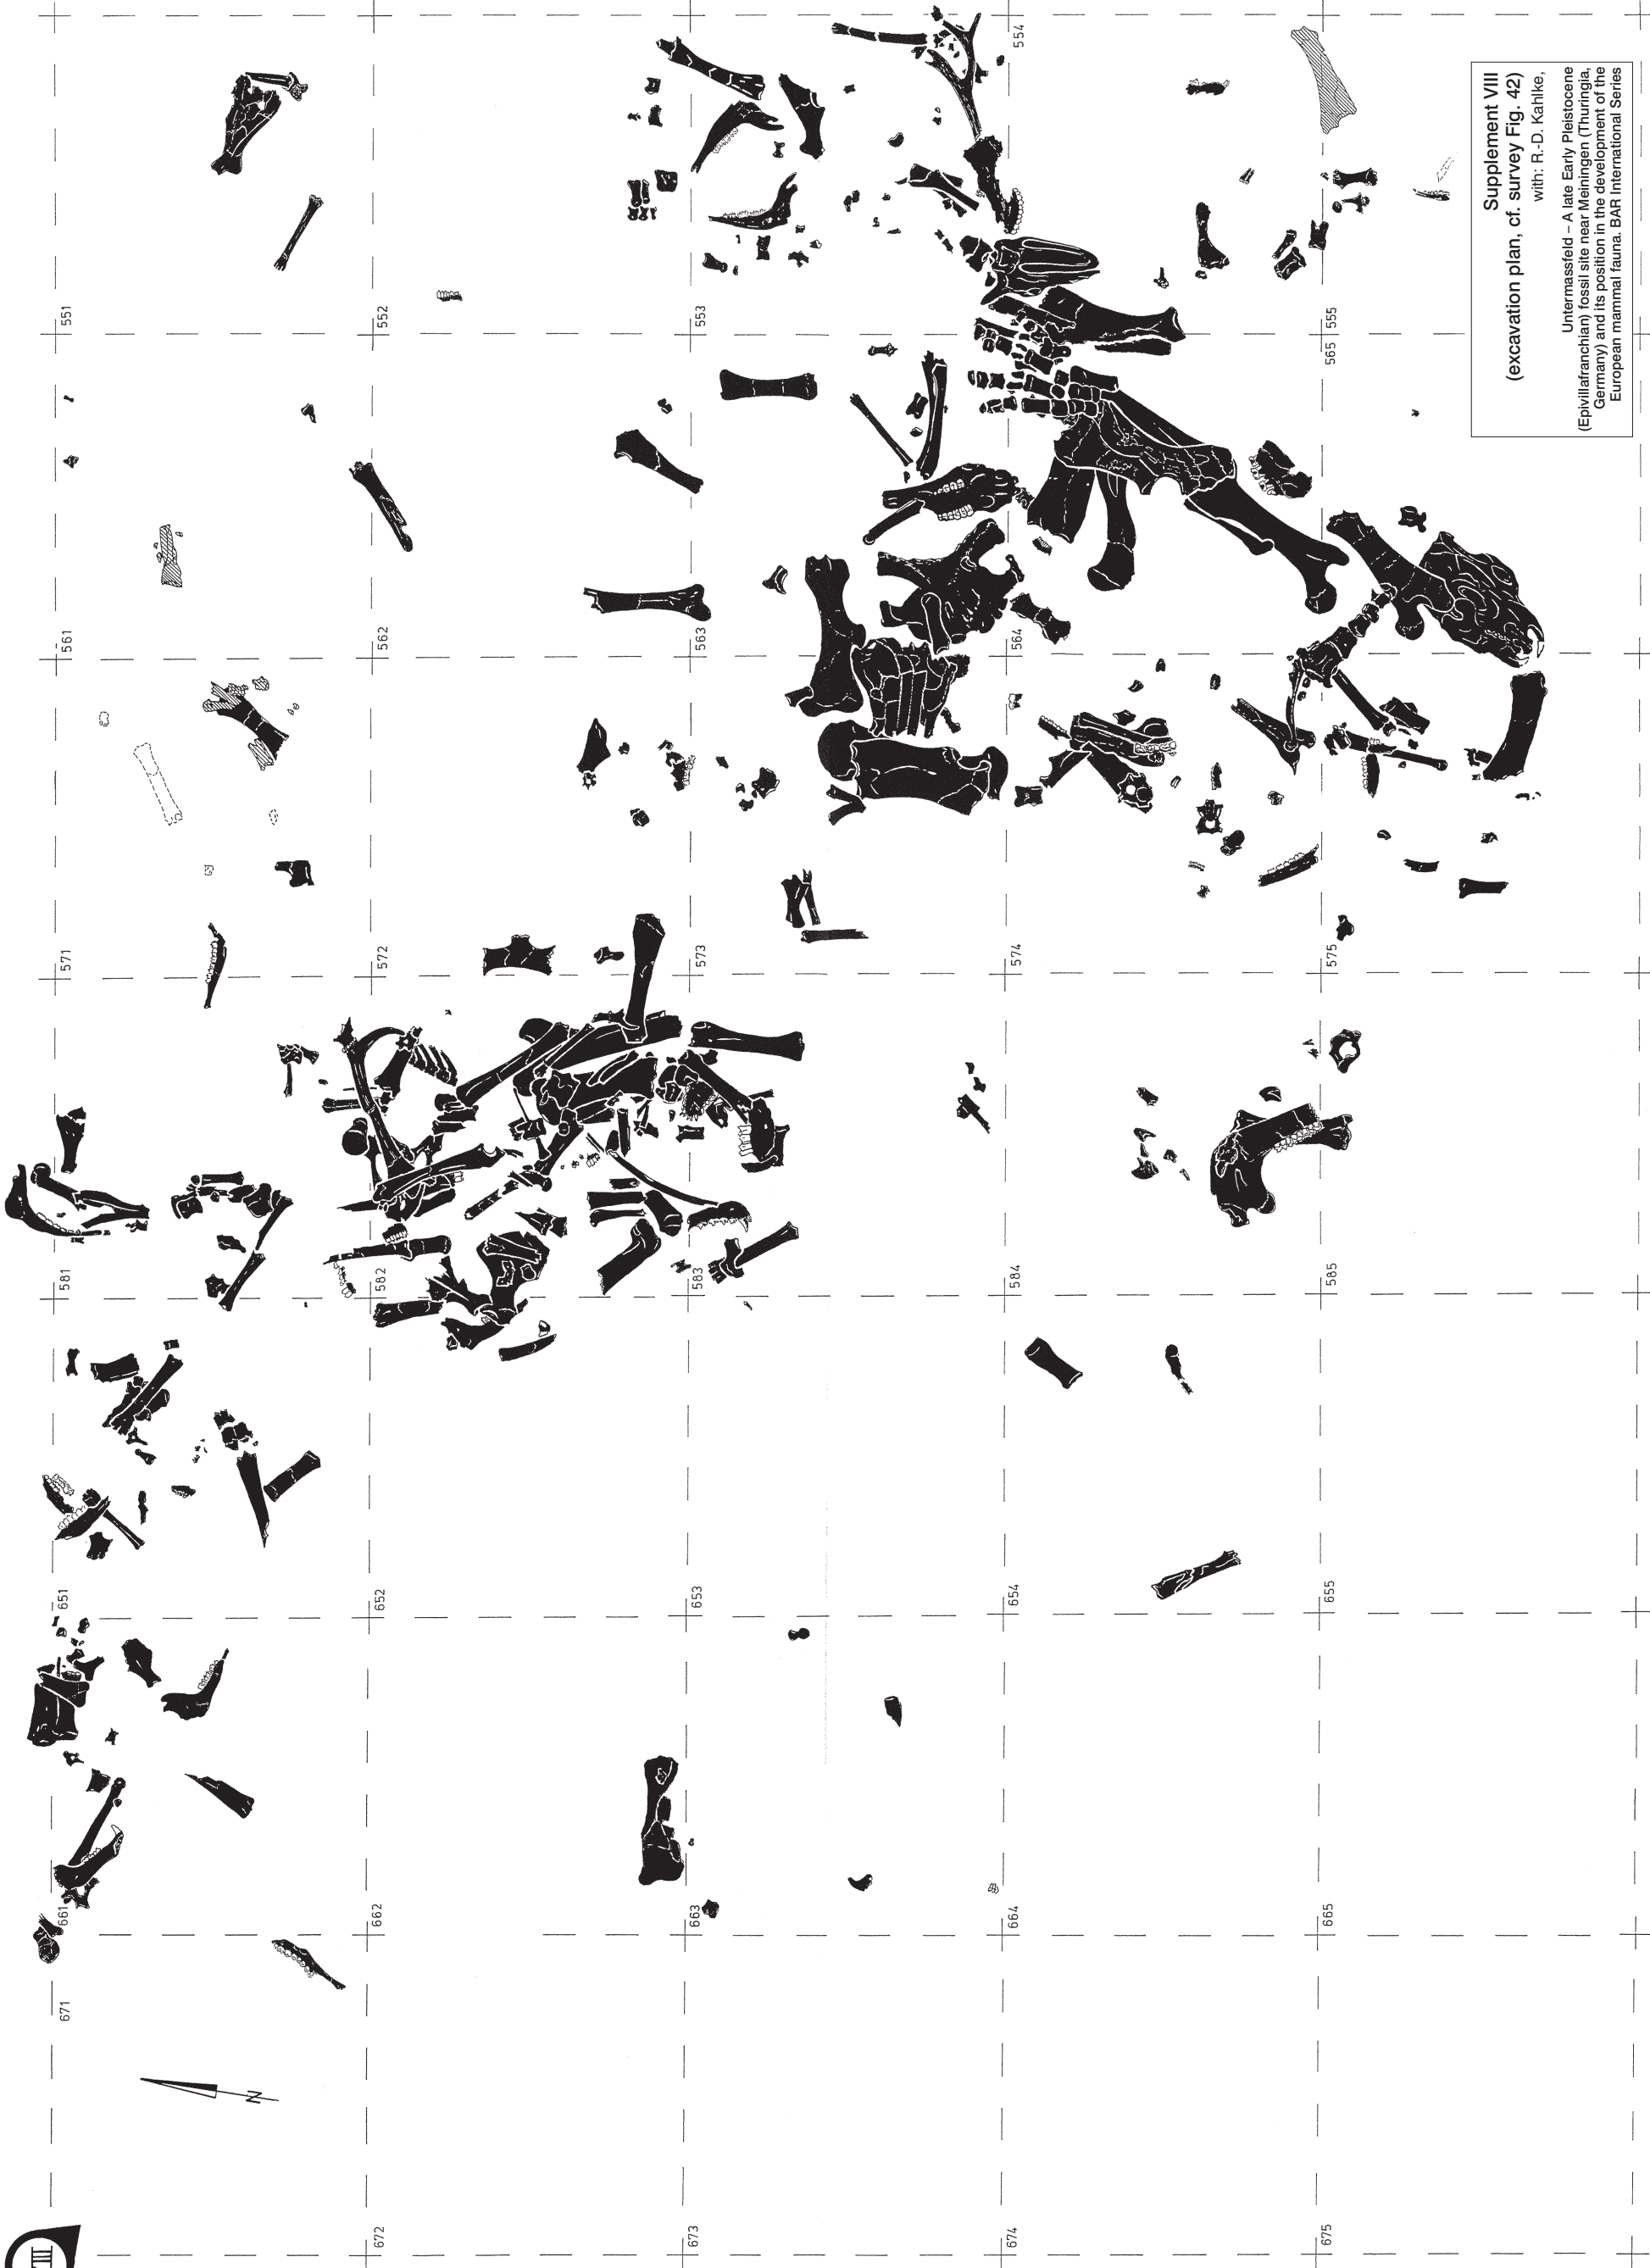

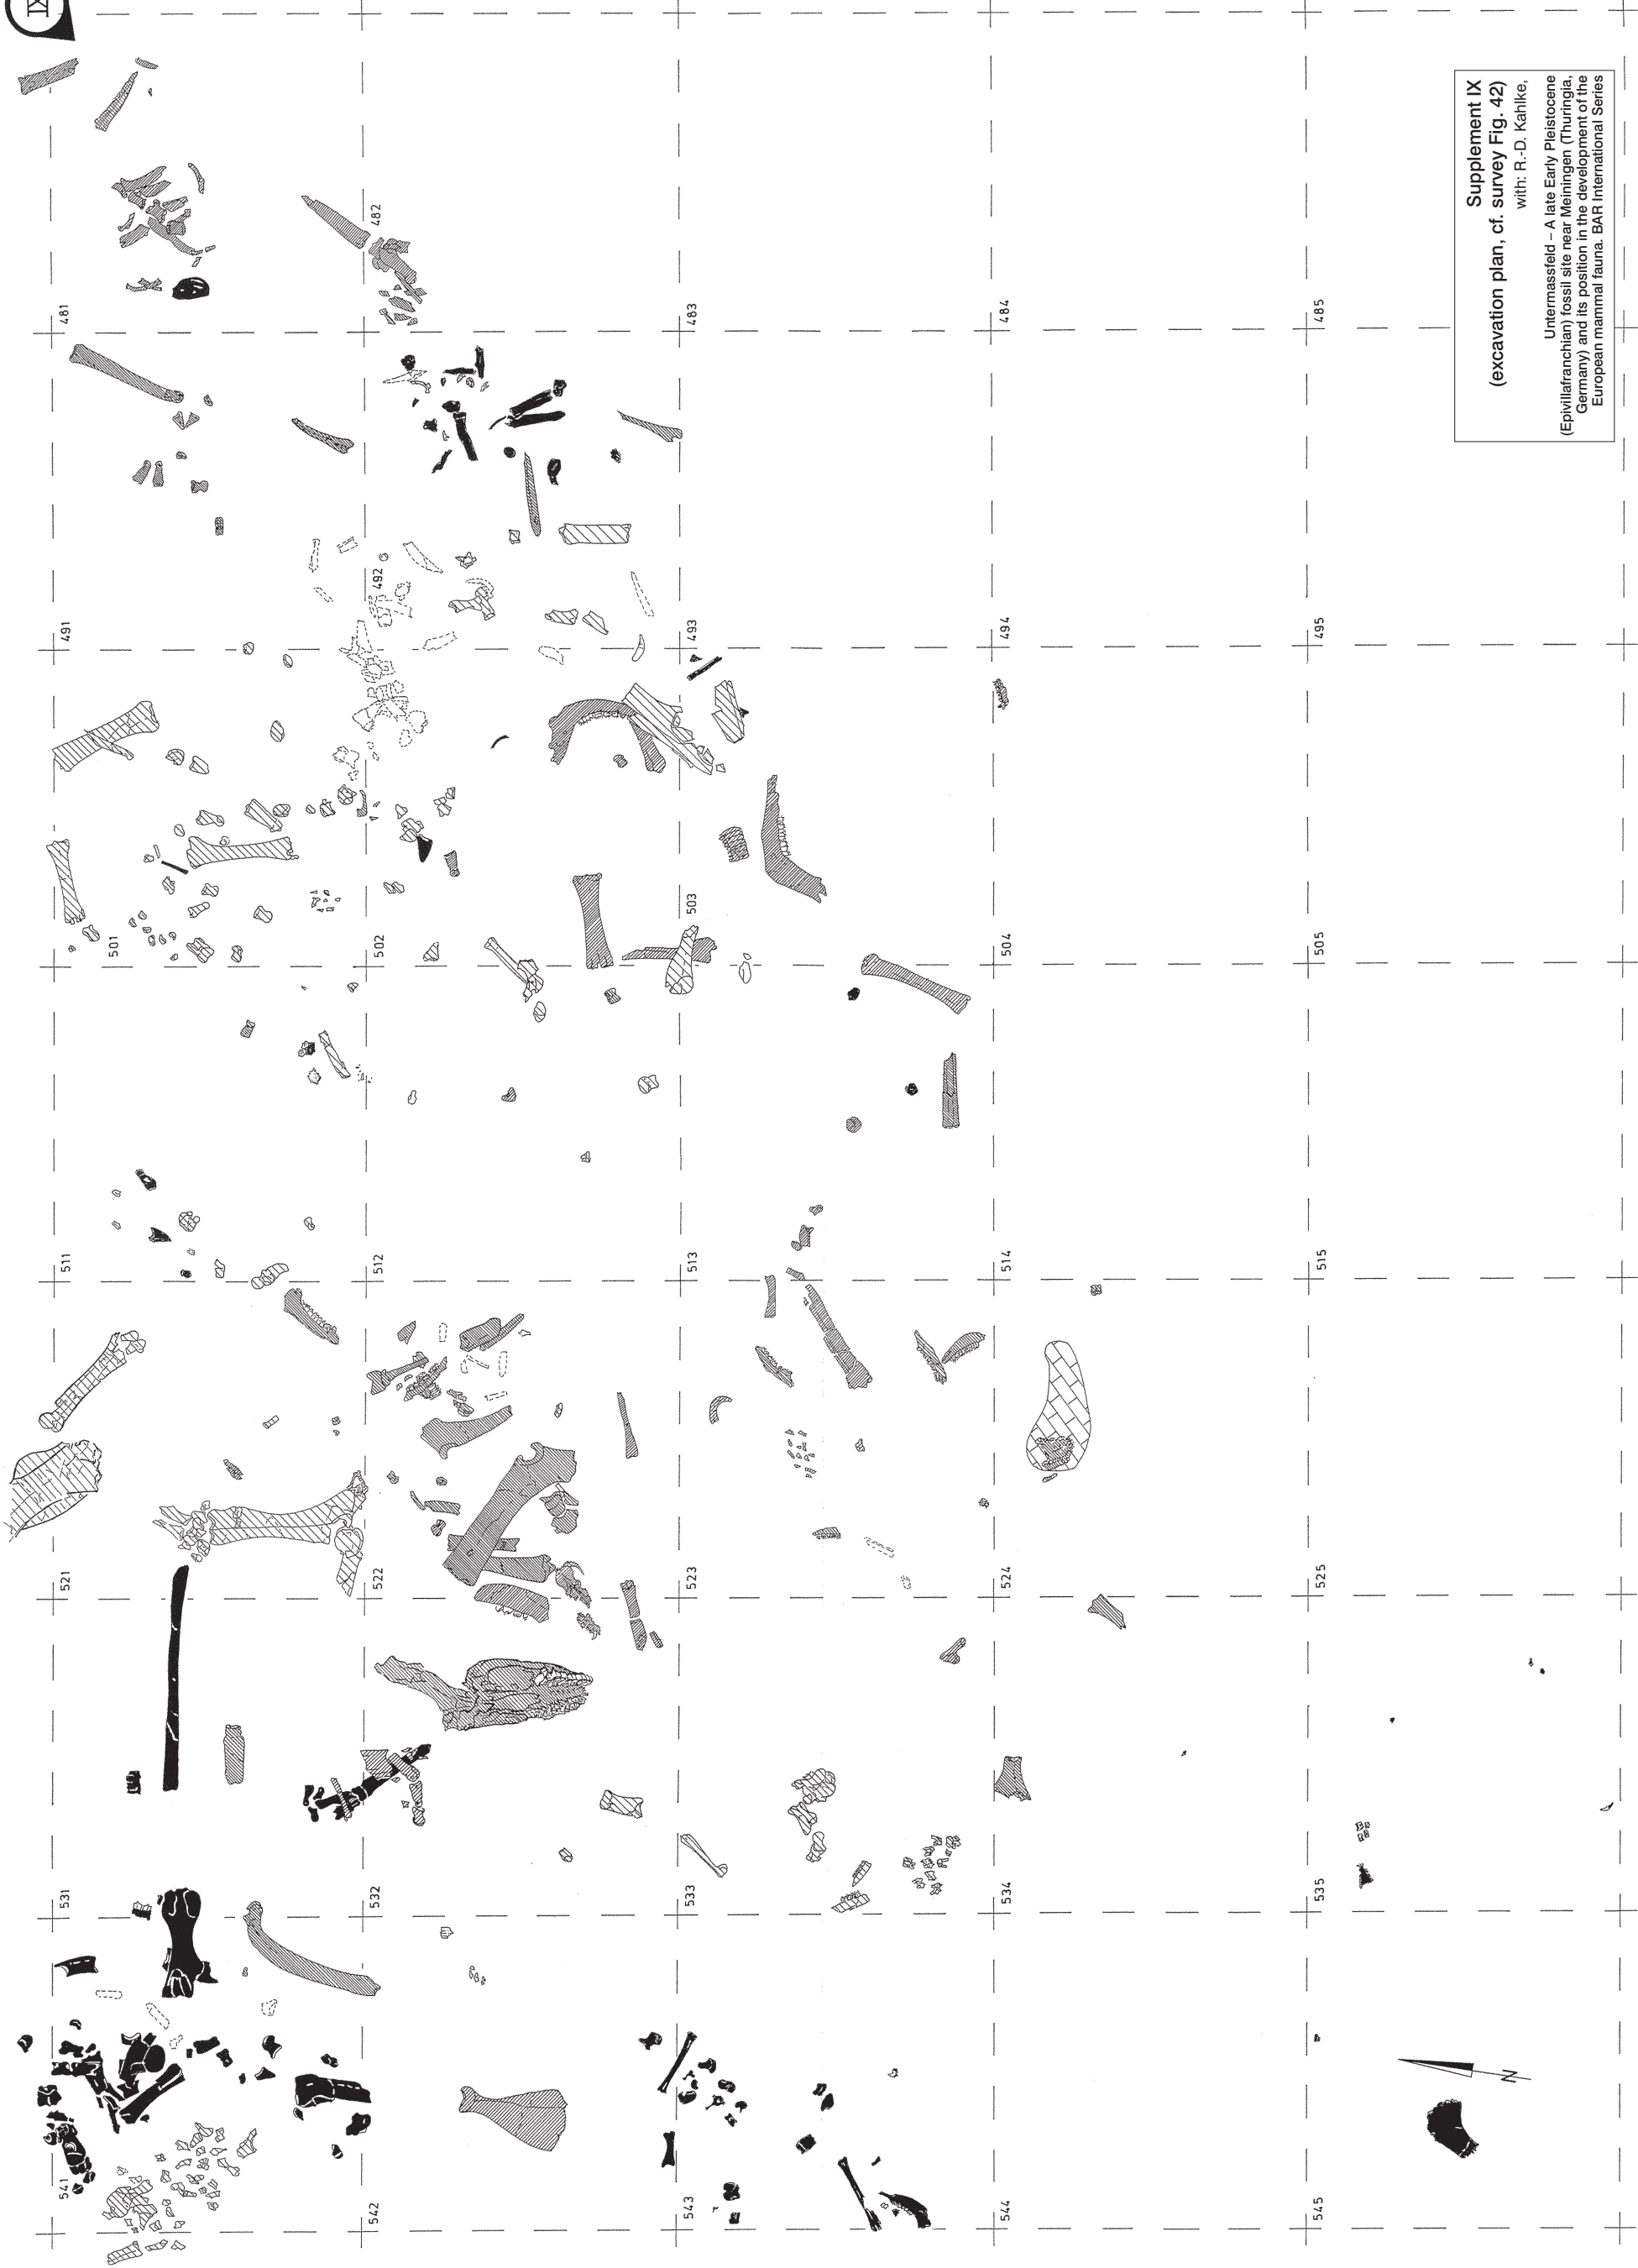

Supplement VI  
(excavation plan, cf. survey Fig. 42)  
with: R.-D. Kahlke,  
Untermassfeld – A late Early Pleistocene  
(Epivillafranchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series

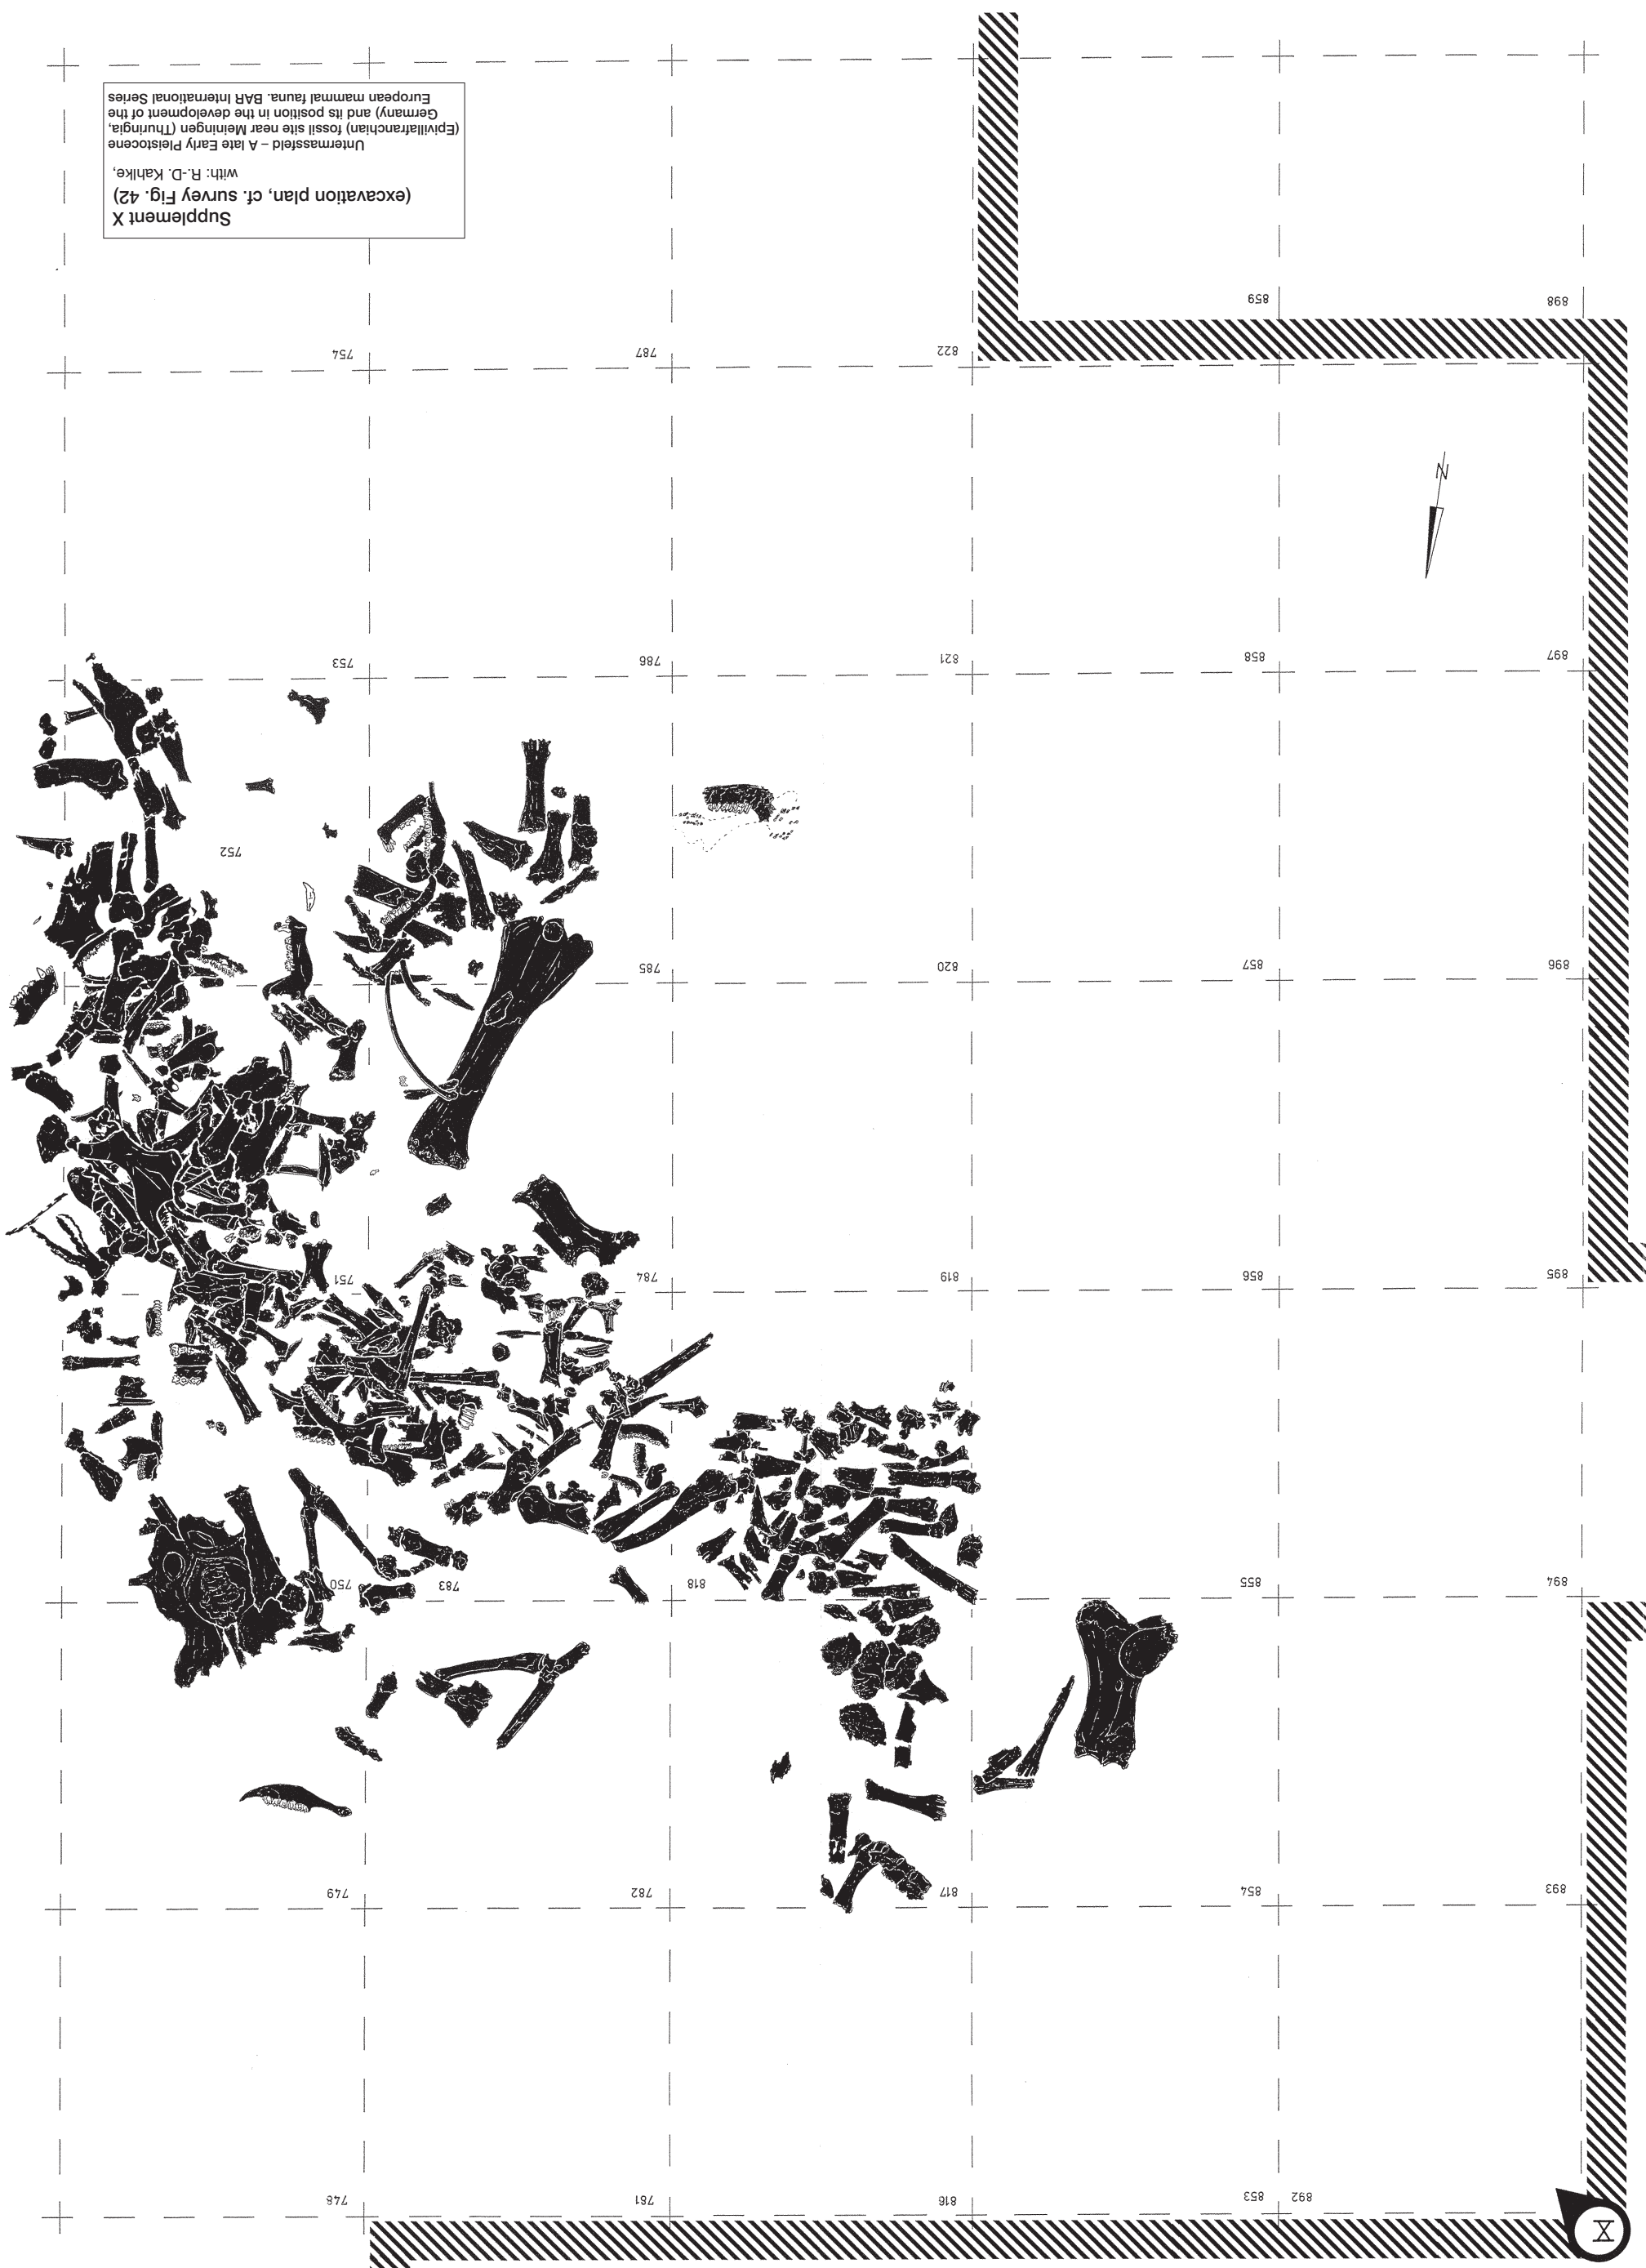

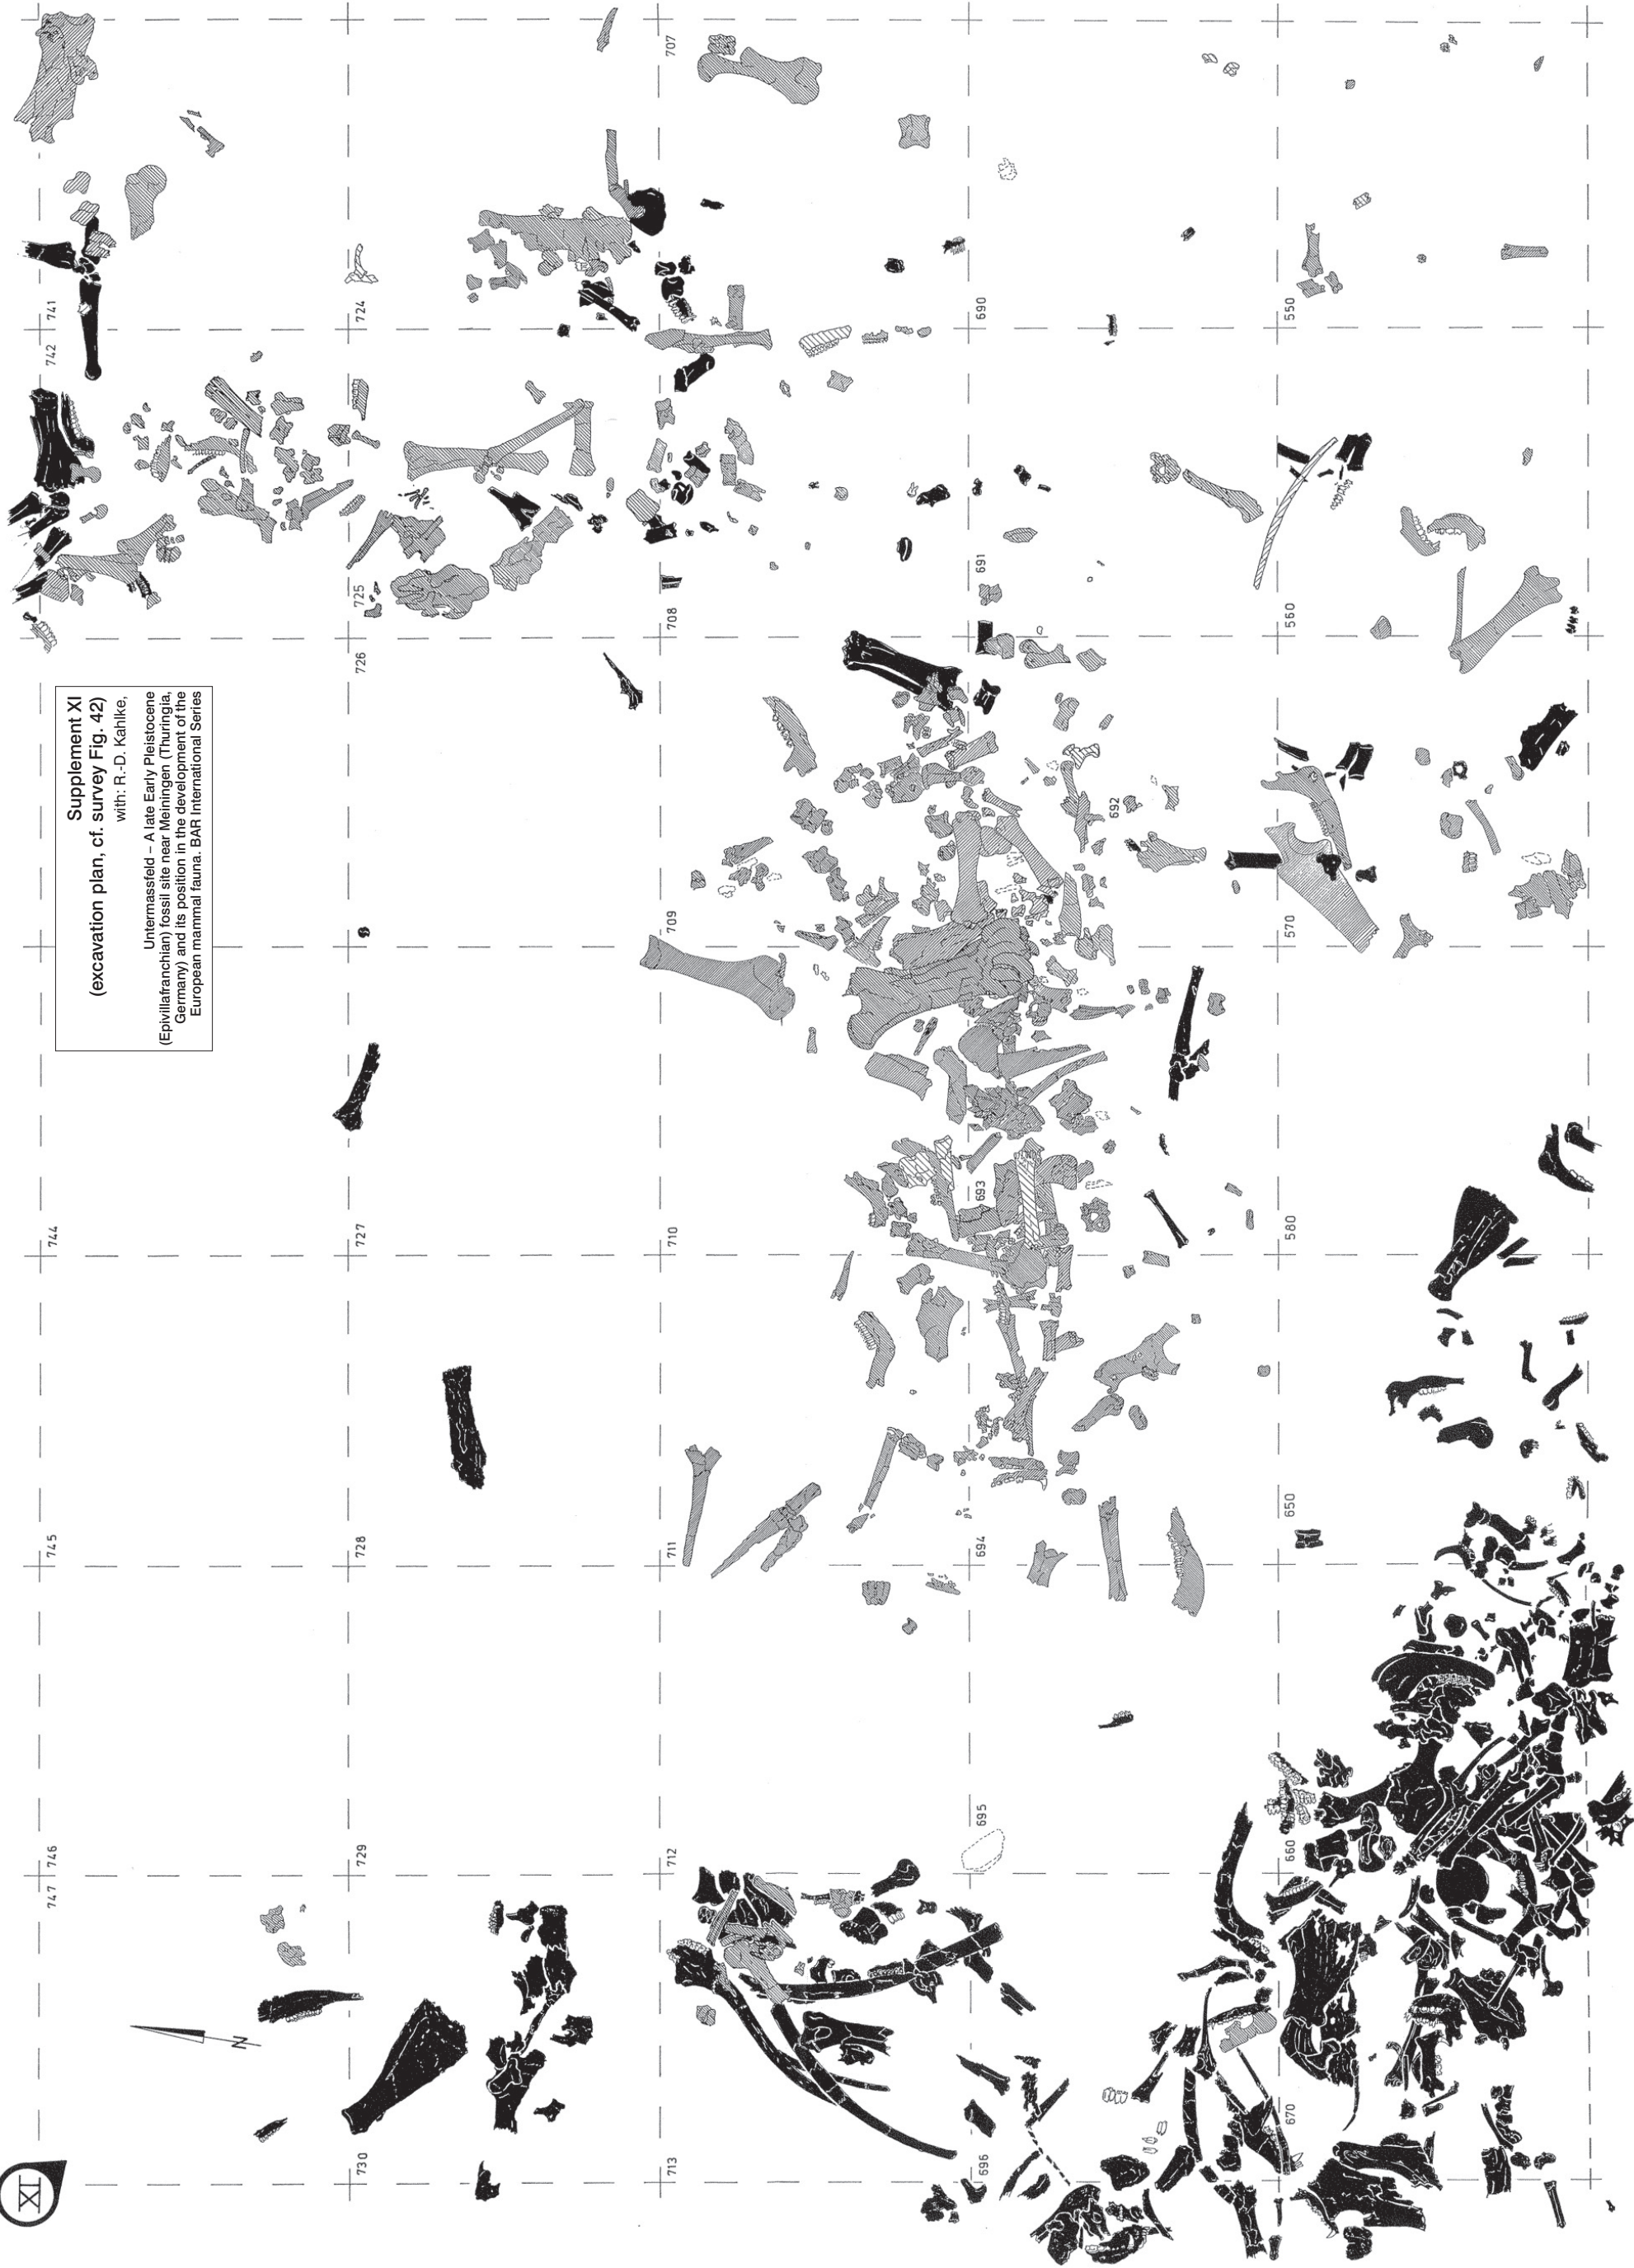

Supplement IX  
(excavation plan, cf. survey Fig. 42)

with: R.-D. Kahlke,

Untermaassfeld — A late Early Pleistocene  
(Epivillafanchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series

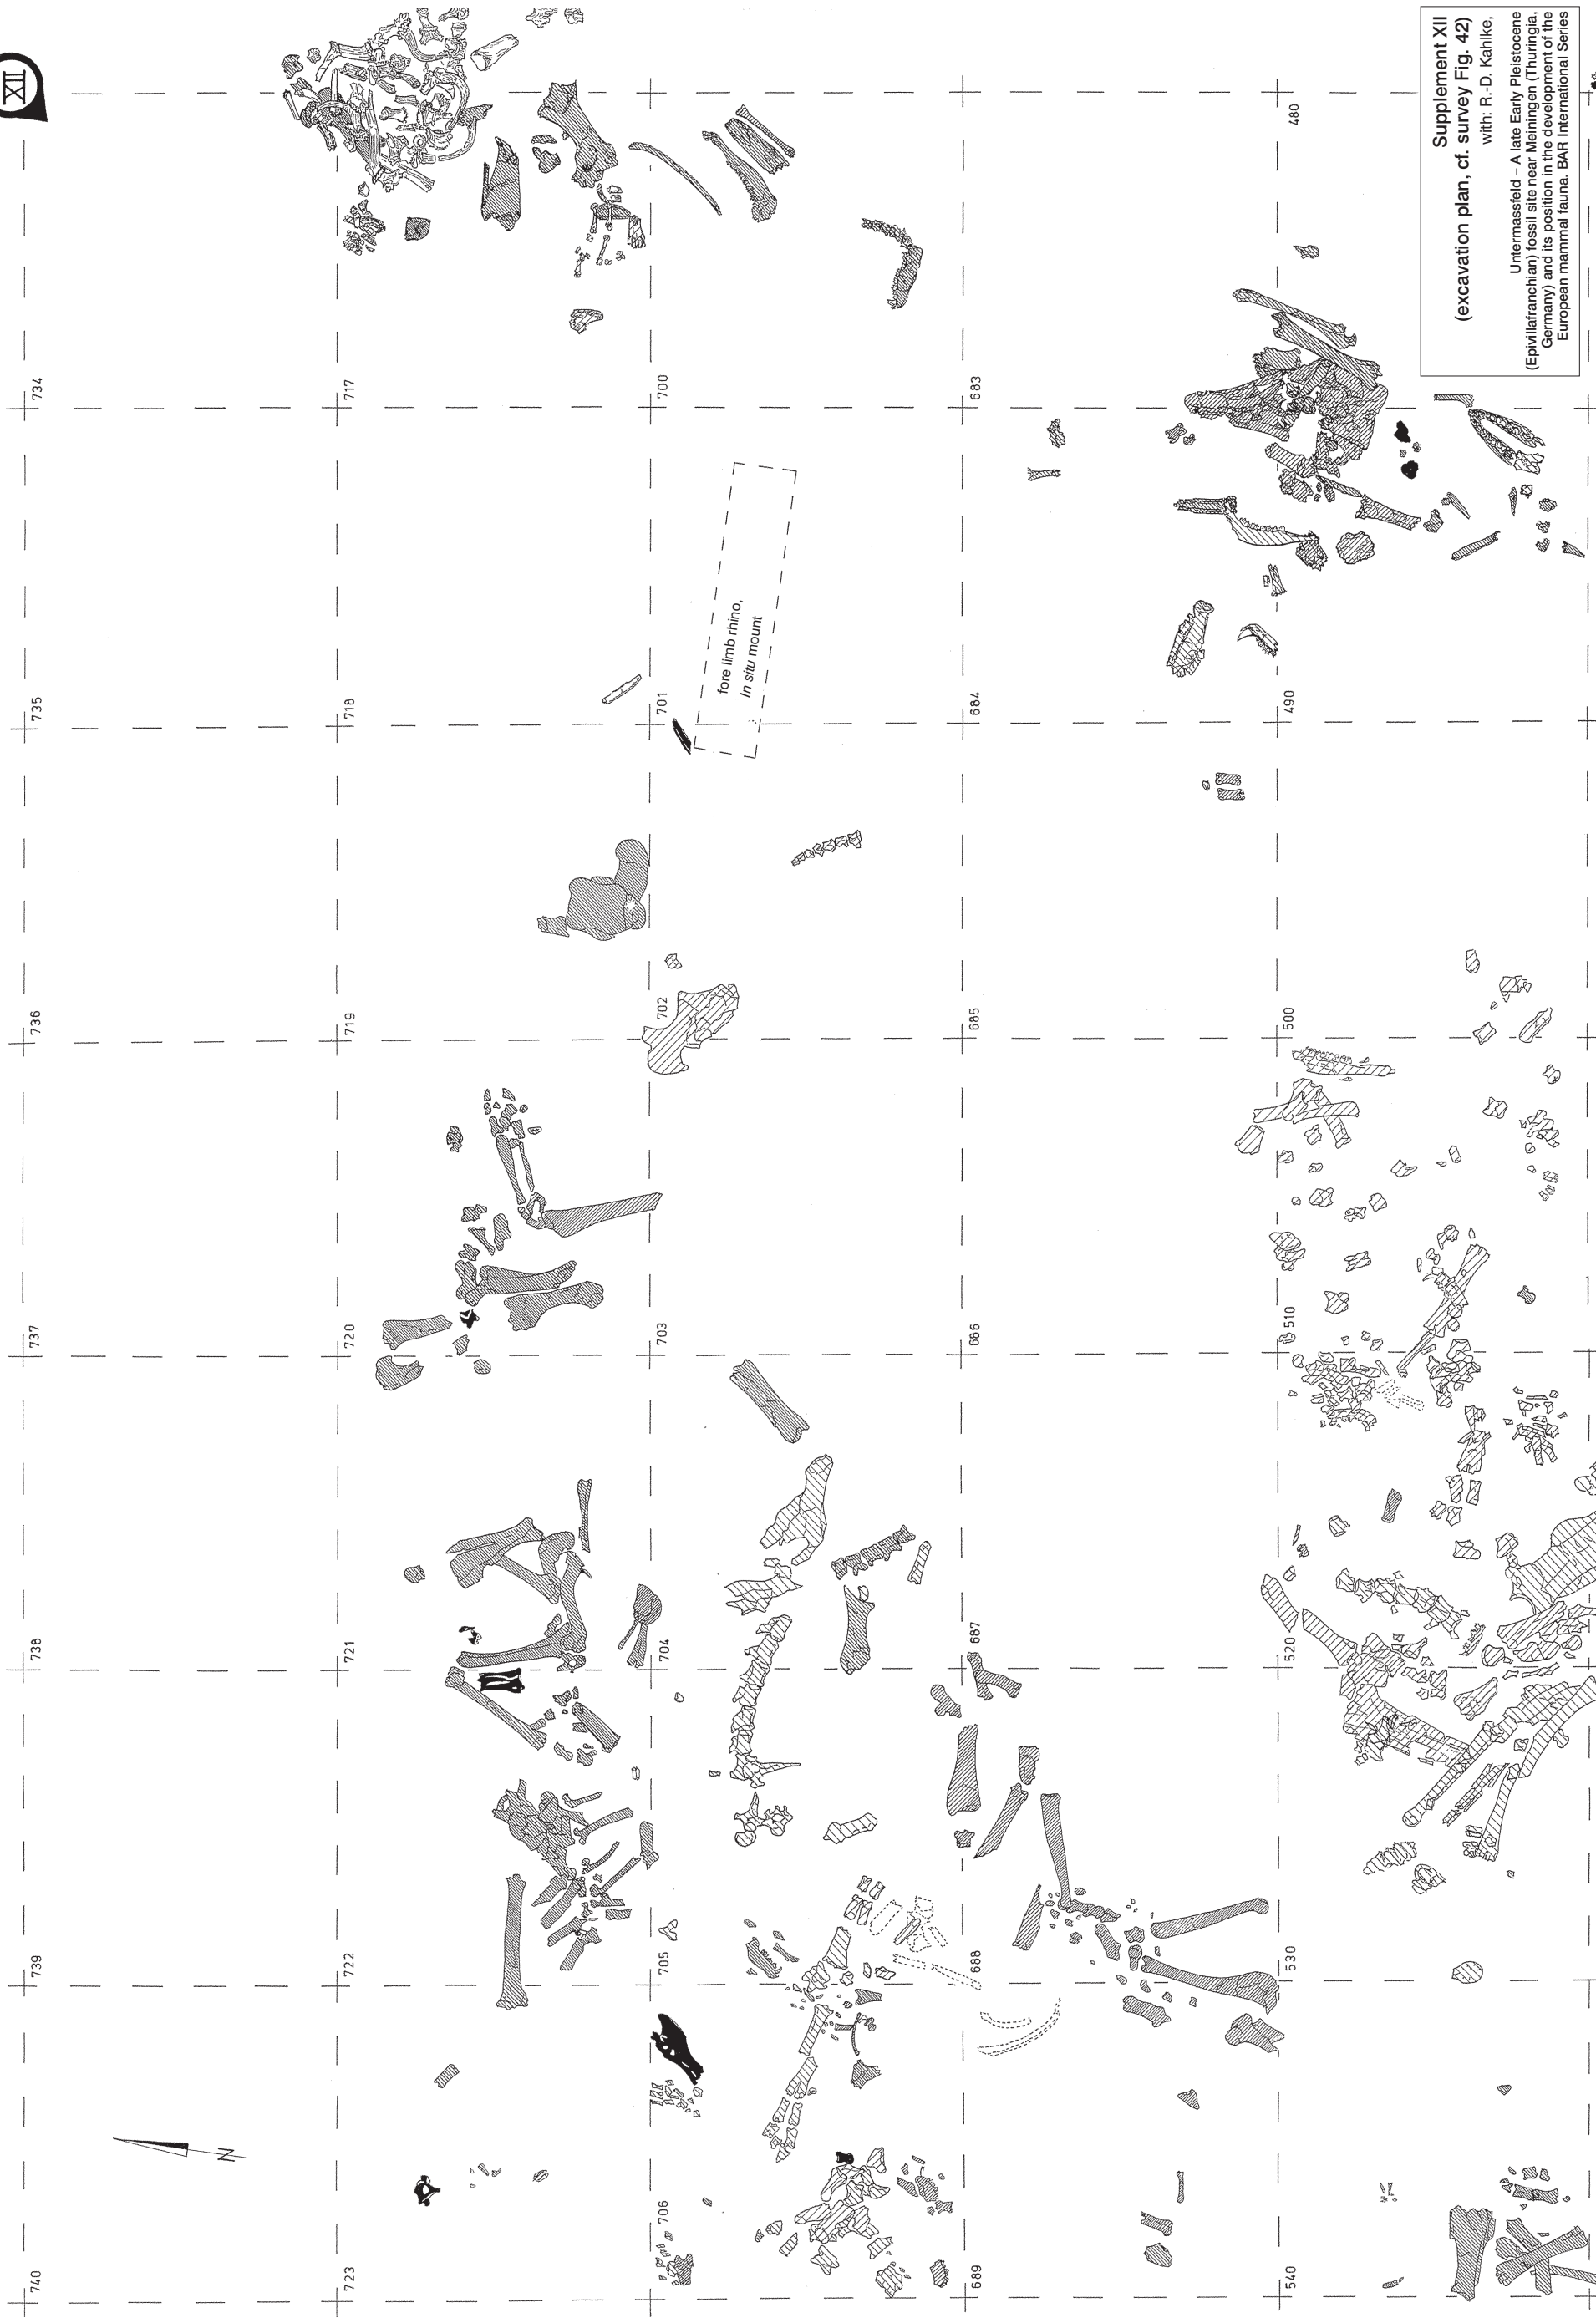

Supplement XI  
(excavation plan, cf. survey Fig. 42)

with: R.-D. Kahlke,

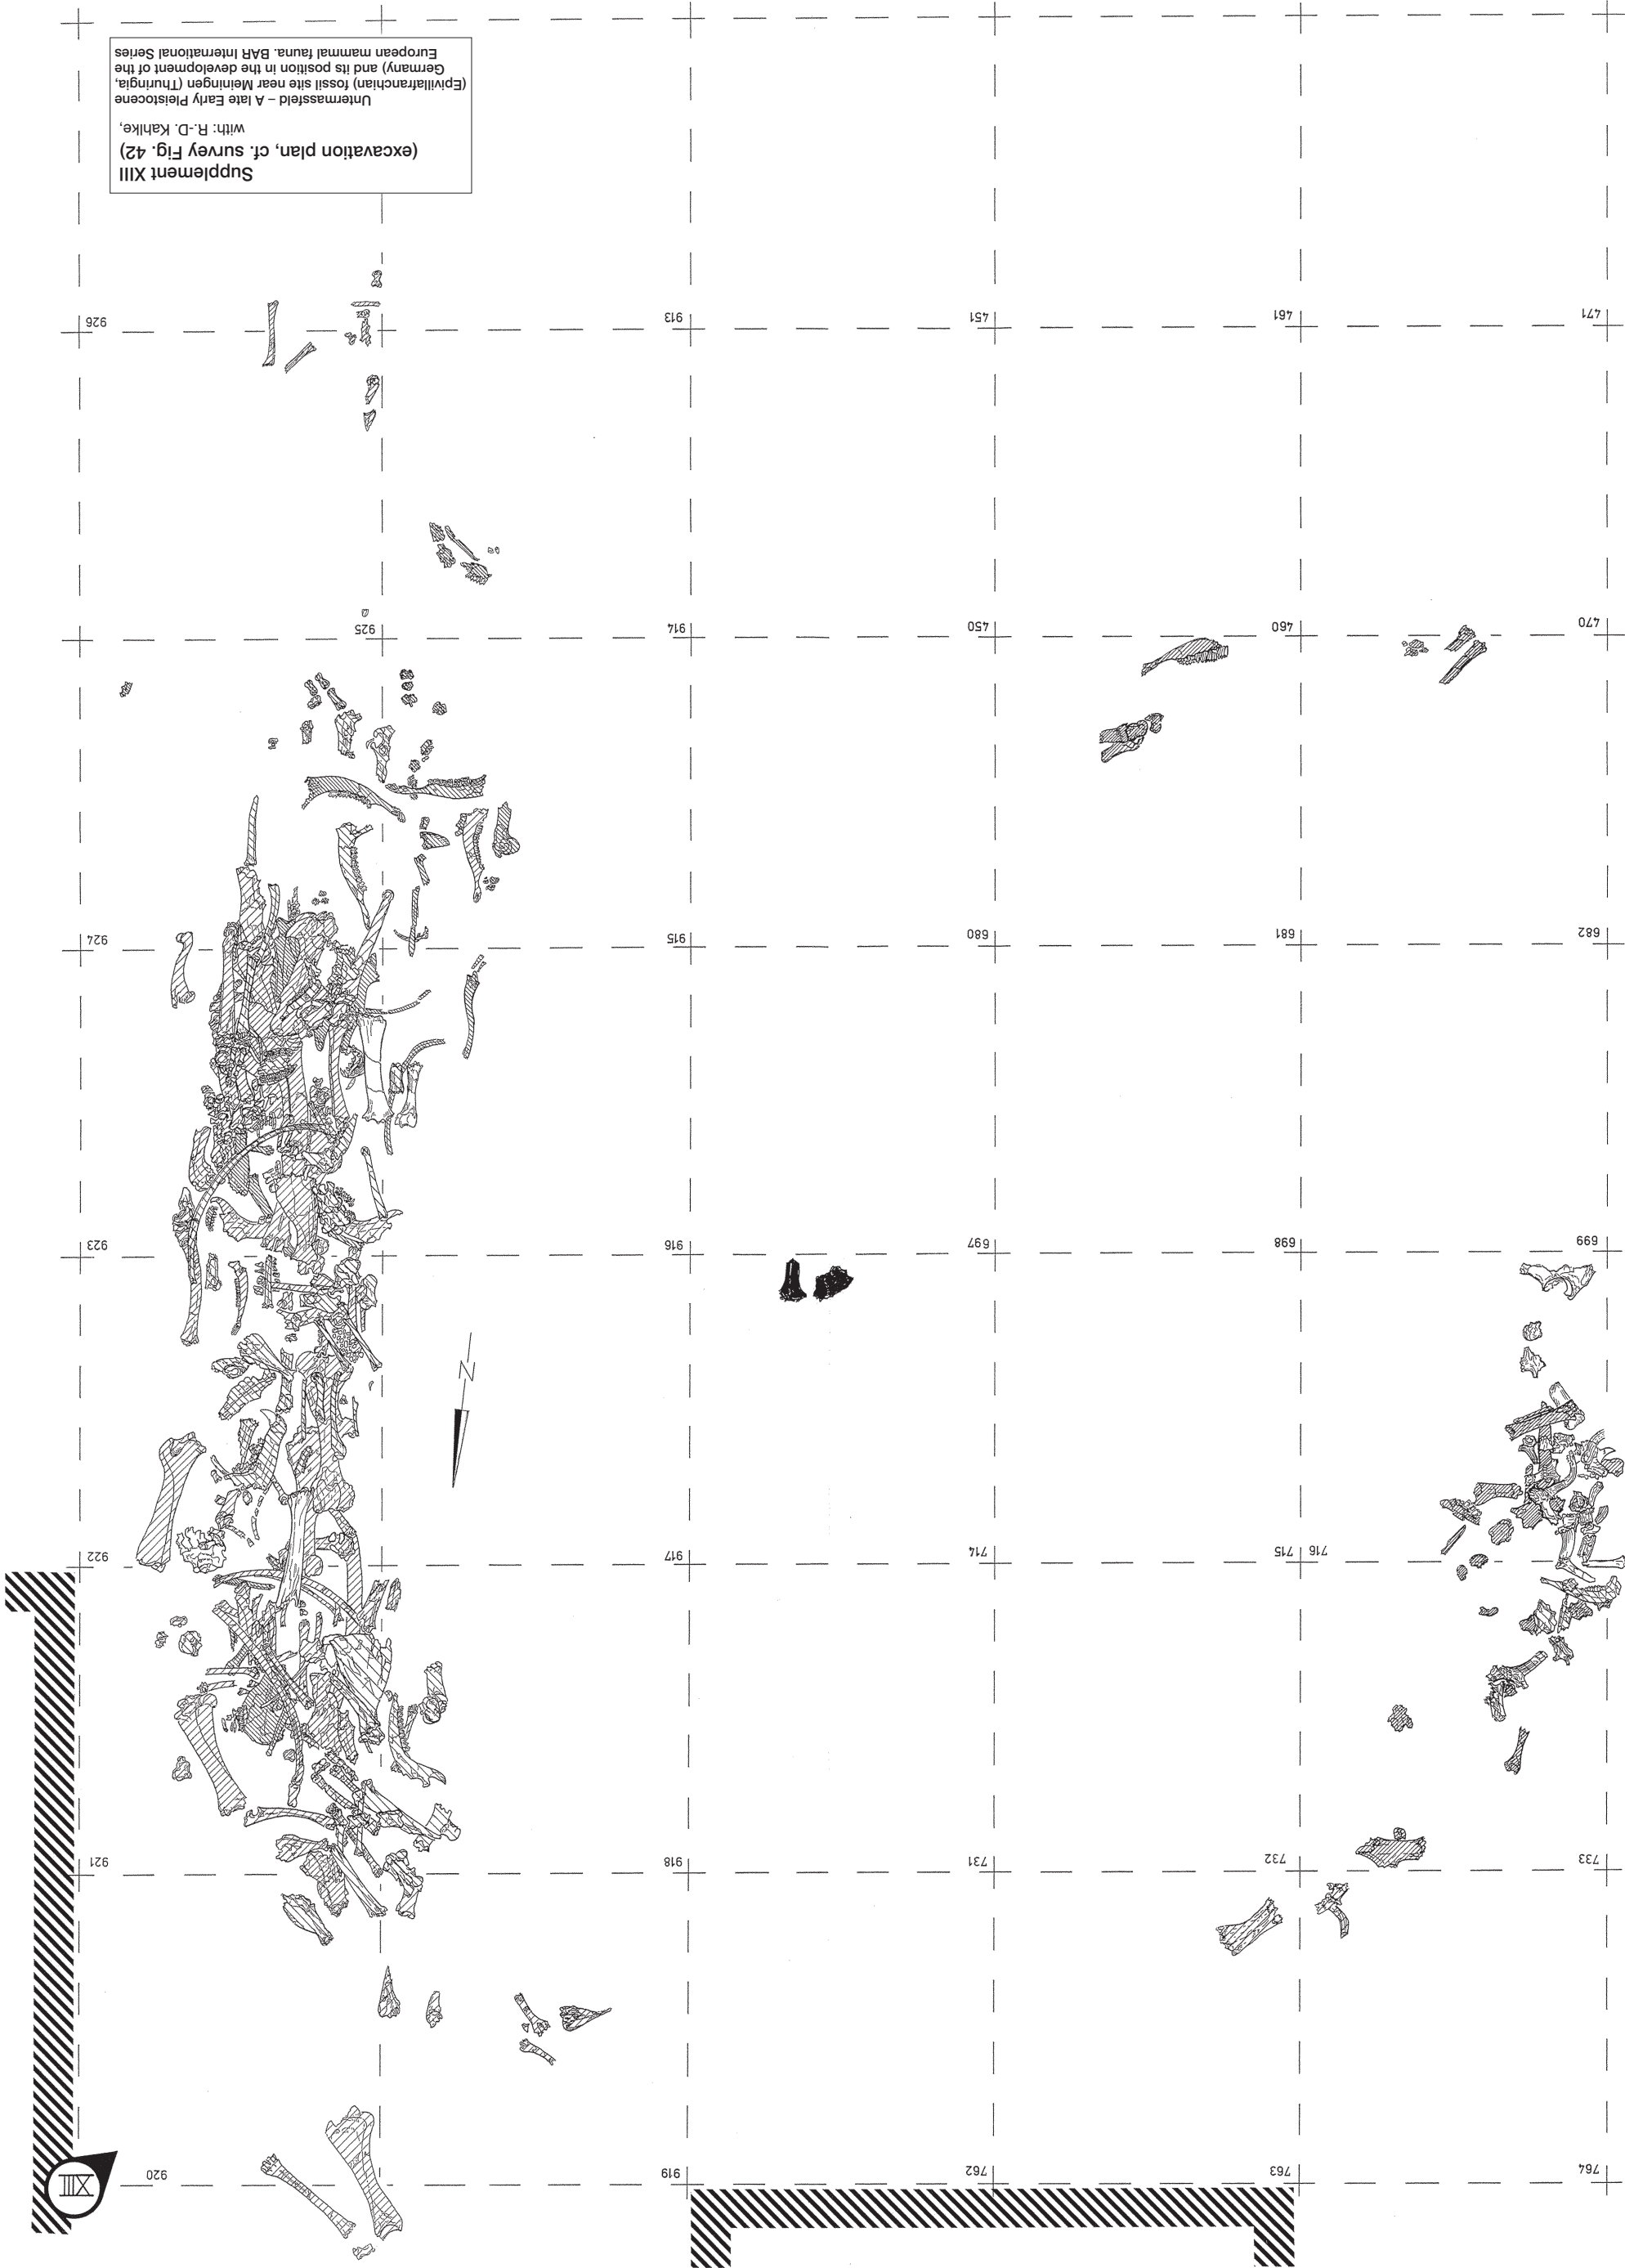

Untermassfeld – A late Early Pleistocene  
(EpiVillafranchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series

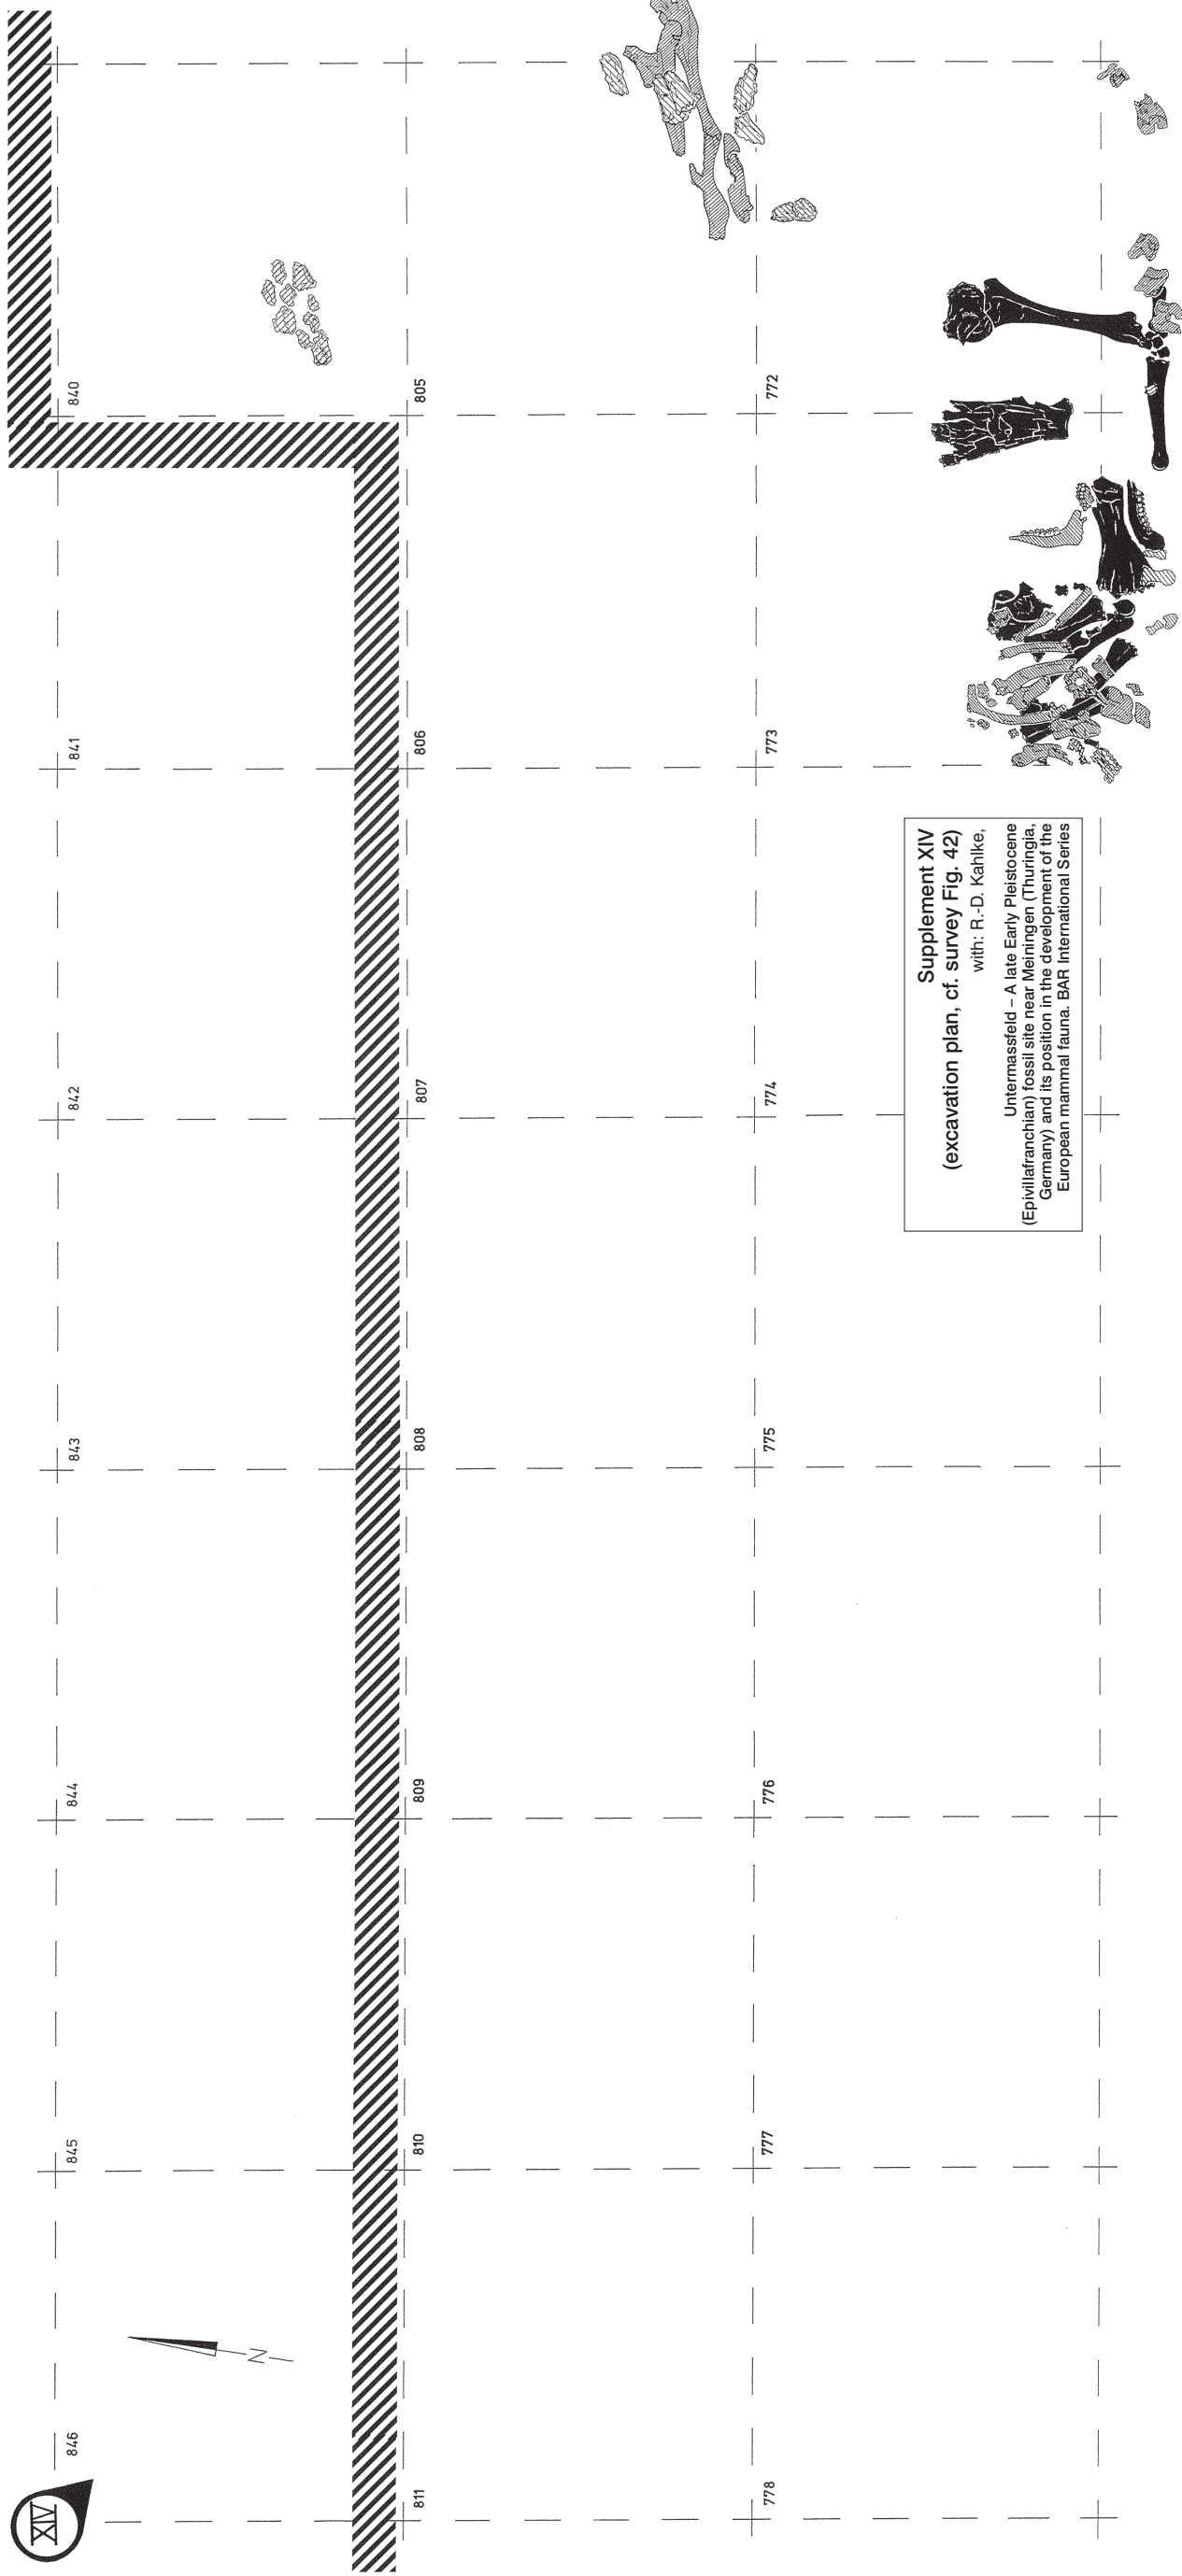

Supplement XII  
(excavation plan, cf. survey Fig. 42)  
with: R.-D. Kahle,  
Untermaasfeld - A late Early Pleistocene  
(Epivillafanchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series

Supplement XIII  
(excavation plan, cf. survey Fig. 42)  
with: R.-D. Kahle,  
Untermassfeld – A late Early Pleistocene  
(Epivillatranchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series

Supplement XIV  
(excavation plan, cf. survey Fig. 42)  
with: R.-D. Kahlke,  
Untermaassfeld – A late Early Pleistocene  
(Epivillafranchian) fossil site near Meiningen (Thuringia,  
Germany) and its position in the development of the  
European mammal fauna. BAR International Series
