

Context Number	Special Find No	Weight gram's	Description	Area
100	55	53	Fuel Slag	East of F122
109		3	One piece of fuel slag	Roman soil level west of S60
120		2	Vitrified material	
121		683	Fuel slag	East of F122 same as 100
127		6	Fuel slag	Layer below 125 in S60
129		15	Vitrified material	Rubble layer above 198
143		30	Vitrified material	Roman soil layer north of F36 same as
144		30	Magnetic Metal waste?	Fill of F128
145		70	Magnetic Metal waste	North corner of S42/299
162	348	30	Tar like pieces and slag	Fill of dark loam west end interior of Structure 42/299
163	299	73	Possible vitrified lining from bowl furnace (metal) IMPORTANT	Rubble layer between F89 West and Features 92 & 50
189		110	Vitrified material and fuel slag	Layer of soil and rubble above F192 in S200
191		53	Fuel Slag	Layer in West Quad of S60 above 202
198		1	Magnetic material	Layer below 129 interior of S197
199		50	Fuel slag and vitrified material	Layer above F192
205		40	Magnetic material, fuel slag and vitrified material	Layer below F192 (sealed context)
212		2	Fuel slag	Fill of F211 in west quad of S60
216		42	Fuel slag and vitrified material	Fill below (198) in S197
222		14	Fuel slag	Fill below 251 Ditch 22
223		15	Vitrified Material	Layer below 202 West Quad of S60
254		26	Fuel Slag?	Below 205 in S200
262		11	Fuel Slag?	Layer below 121 east End around S122
277			Vitrified Material	
279		39	Fuel slag	Below 278 fill of F160
300		18	Vitrified material	Occupation level interior of F274
