

| Context Numbers | Special Finds Number | Area | Description |
|-----------------|----------------------|--|--|
| 41 | | Same as fill 142 of F158 | |
| 65 | | Clearance east of S60 | |
| 110 | 172 | North side of S60 | Worked. Curving with evidence of hole (coal money?) from bracelet making 6x4cm |
| 110 | 316 | North side of S60 | Waste Shale |
| 110a | | North side of S60 | |
| 110a | 156 | North side of S60 | Small crescent shaped with possible hole 4.5x3cm |
| 110b | | North side of S60 | |
| 110c | | North side of S60 | |
| 121 | 317 | East end of 13 x 4m layer between Structure 299 and feature 36 | Possibly worked |
| 121c | | Layer between S 42 & 299 south & F36 north | |
| 121c | 65 | Layer between S 42 & 299 south & F36 north | Part of possible bracelet, which has been turned on a lathe. 4cm length |
| 121c | 315 | West End of 13 x 4m layer between Structures 42 and Feature 36 | Worked. Looks like a small circular counter approx. 2cm |
| 127 | | Layer below 125 in east/quad of S60 | |
| 129 | | Rubble layer between southern baulk and F17 | |
| 129 | 318 | Rubble layer above (198) | Triangular shape with one edge curving 6.5 x6cm approx. |
| 130 | | Layer above 174 & 158 north side of S299 | Probably slate and not shale |
| 138 | | Rubble layer above entrance passage of S200 | |
| 149 | | of 159 possible floor east end of S299/42 | Probably slate and not shale |
| 171 | | Layer east of 18 approx 3m x3m | |
| 171 | 319 | Rubble layer to the south of S42/99 | Waste |
| 185 | 320 | Burnt area of clay in east Quadrant of S60 | Possibly shaped 3x3cm approx. |
| 188 | | South West corner of site | |

| Context Numbers | Special Finds Number | Area | Description |
|-----------------|----------------------|---|---|
| 189 | | Layer of loam and rubble between S17 & Ditch 22 | |
| 189 | 116 | Layer of loam and rubble between S17 & Ditch 22 | Worked Shale |
| 189 | 117 | Layer of loam and rubble between S17 & Ditch 22 | Worked Shale curving forming a D shape. Approx 1cm in thickness. Width 7 1/2 cm. Straight side of D possibly sawn |
| 192 | | Kiln/ oven area in S200 | |
| 198 | 321 | Layer below (129) interior of Structure 197 | Worked shale in fragments |
| 198 | | Layer below (129) in S197 | |
| 199 | | Layer above F192 | |
| 203 | 345 | | Possibly worked with holes |
| 205 | | Fill below F192 sealed context | Highly Burnt |
| 209 | | Layer below (161) West side of S59 | |
| 216 | | Layer below (198) in S197 | |
| 223 | | Fill of F201 in west quad of S60 | |
| 227 | 151 | Top fill of North Quad S60 | Could be stone? Part of a bracelet |
| 245 | | Below (227) | |
| 251 | | Below (110) east | |
| 254 | | Fill below 205 east end of S200 | |
| 285 | 323 | Fill below large slabs in S59 | Possibly worked |
| 279 | 322 | Fill above S178. | Worked shale small triangular shape 2x3cm |
| 291 | | Below 121c | |
| 291 | 226 | Below 121c | Worked. Round in shape but broken into several fragments |
