<b>List of Figures</b> .....	<b>ix</b>
<b>List of Tables</b> .....	<b>xii</b>
<b>Abstract</b> .....	<b>xiii</b>
<b>Chapter 1. Introduction</b> .....	<b>1</b>
1.1 Archaeozoology.....	1
1.2 The site of Sand and its archaeozoological context .....	2
1.3 Research questions and structure .....	2
<b>Chapter 2. Site and Material</b> .....	<b>5</b>
2.1 Site.....	5
2.1.1 Location.....	5
2.1.2 Environmental setting.....	5
2.1.2.1 Geology .....	5
2.1.2.2 Present-day climatic conditions.....	6
2.1.2.3 Palaeo-climatic conditions – The Medieval Warm Period (MWP) .....	6
2.1.3 Archaeological research and interpretation .....	6
2.1.4 Archaeozoology of Sand: previous investigations and state of research.....	9
2.1.5 Historical context .....	9
2.1.6 Archaeological evidence for early medieval settlements in Lower Austria .....	10
2.1.7 Archaeological finds from the immediate region of Sand during the 9 <sup>th</sup> and 10 <sup>th</sup> centuries AD .....	12
2.2 Material .....	13
2.2.1 Quantification .....	13
2.2.2 Archaeological context.....	13
<b>Chapter 3. Methodology</b> .....	<b>15</b>
3.1 Identification .....	15
3.2 Quantification.....	15
3.3 Skeletal element representation / body part representation.....	15
3.4 Sex ratio and age at death.....	16
3.4.1 Sex ratio.....	16
3.4.2 Age at death.....	17
3.5 Butchery marks .....	18
3.6 Morphometric analysis.....	18
3.7 Spatial analysis.....	18
<b>Chapter 4. Analysis by Species</b> .....	<b>19</b>
4.1 Quantification and analysis of the archaeozoological material.....	19
4.1.1 Domesticated species .....	19
4.1.2 Wild species.....	19
DOMESTICATED SPECIES.....	19
4.2 Cattle ( <i>Bos primigenius</i> f. <i>taurus</i> ).....	19
4.2.1 Quantification .....	19
4.2.2 Sex ratio.....	20
4.2.2.1 Results .....	20
4.2.2.2 Interpretation .....	20
4.2.3 Age at death.....	21
4.2.3.1 Results .....	21
4.2.3.2 Interpretation .....	22
4.2.4 Combining sex and age distribution.....	22
4.2.4.1 Discussion and interpretation .....	22
4.2.5 Skeletal element distribution .....	23
4.2.5.1 Results and interpretation .....	23
4.2.6 Modifications.....	23
4.2.6.1 Butchery marks.....	23
4.2.7 Morphometric analysis .....	25
4.2.7.1 The comparative material .....	26

4.2.7.1.1 Dürrenberg.....	27
4.2.7.1.2 Nickelsdorf.....	29
4.2.7.1.3 Roseldorf.....	30
4.2.7.1.4 Bernhardsthal.....	30
4.2.7.1.5 Mikulčice.....	31
4.2.7.1.6 Gars-Thunau.....	32
4.2.7.1.7 Raabs.....	33
4.2.7.1.8 Stillfried.....	34
4.2.7.1.9 Sand.....	34
4.3 Sheep ( <i>Ovis orientalis</i> f. <i>aries</i> ) and Goat ( <i>Capra aegagrus</i> f. <i>hircus</i> ).....	41
4.3.1 Quantification.....	41
4.3.2 Sex ratio.....	42
4.3.2.1 Results and interpretation.....	42
4.3.3 Age at death.....	43
4.3.3.1 Results and interpretation.....	43
4.3.4 Combining sex and age distribution.....	43
4.3.4.1 Discussion and interpretation.....	43
4.3.5 Skeletal element distribution.....	44
4.3.5.1 Results and interpretation.....	44
4.3.6. Modifications.....	44
4.3.6.1 Butchery marks.....	44
4.3.7 Morphometric analysis of goat.....	45
4.4 Pig ( <i>Sus scrofa</i> f. <i>domestica</i> ).....	46
4.4.1 Quantification.....	46
4.4.2 Sex ratio.....	46
4.4.2.1 Results and interpretation.....	46
4.4.3 Age at death.....	46
4.4.3.1 Results and interpretation.....	46
4.4.4 Combining sex and age distribution.....	47
4.4.4.1 Discussion and interpretation.....	47
4.4.5 Skeletal element distribution.....	48
4.4.5.1 Results and interpretation.....	48
4.4.6 Modifications.....	48
4.4.6.1 Butchery marks.....	48
4.4.7 Size and shape.....	48
4.5 Horse ( <i>Equus ferus</i> f. <i>caballus</i> ).....	49
4.6 Dog ( <i>Canis lupus</i> f. <i>familiaris</i> ).....	50
4.7 Domestic fowl ( <i>Gallus gallus</i> f. <i>domestica</i> ).....	50
WILD SPECIES.....	51
4.8 Aurochs ( <i>Bos primigenius</i> ), Bison ( <i>Bison bonasus</i> ) and wild Bovidae.....	51
4.8.1 Identification.....	51
4.8.1.1 Previous research.....	51
4.8.1.2 Methodology.....	51
4.8.1.3 Results.....	52
4.8.2 Quantification.....	52
4.8.2.1 Aurochs.....	52
4.8.2.2 Bison.....	53
4.8.2.3 Unidentified fragments of wild Bovidae.....	53
4.8.3 Sex ratio.....	53
4.8.3.1 Results and interpretation for bison.....	53
4.8.4 Age at death.....	53
4.8.4.1 Results.....	53
4.8.5 Combining sex and age distribution.....	54
4.8.5.1 Discussion and interpretation.....	54
4.8.6 Skeletal element distribution and butchery marks.....	54
4.8.6.1 Results.....	54
4.9 Red deer ( <i>Cervus elaphus</i> ).....	54
4.9.1 Quantification.....	54
4.9.2 Sex ratio and age at death.....	54
4.9.2.1 Results.....	54

4.9.3 Skeletal element distribution.....	55
4.9.3.1 Results .....	55
4.9.4 Morphometric analysis.....	56
4.9.4.1 Results .....	56
4.10 Roe deer and Elk ( <i>Capreolus capreolus</i> and <i>Alces alces</i> ).....	56
4.10.1 Quantification.....	56
4.10.2 Sex ratio and age at death.....	56
4.10.2.1 Results .....	56
4.10.3 Skeletal element representation and butchery marks .....	57
4.10.3.1 Results .....	57
4.10.4 Morphometric analysis.....	57
4.10.4.1 Results .....	57
4.11 Wild boar ( <i>Sus scrofa</i> ).....	57
4.11.1 Quantification.....	57
4.11.2 Sex ratio and age at death.....	58
4.11.2.1 Results.....	58
4.11.3 Skeletal element distribution .....	58
4.11.3.1 Results.....	58
4.11.4 Morphometric analysis.....	59
4.11.4.1 Results.....	59
4.12 European hare ( <i>Lepus europaeus</i> ).....	60
4.13 Black rat ( <i>Rattus rattus</i> ).....	60
4.14 Wild cat ( <i>Felis silvestris</i> ) .....	60
4.15 Carnivora, Lagomorpha, and Rodentia (fur animals) .....	62
4.16 Other wild species .....	62
<b>Chapter 5. Discussion .....</b>	<b>63</b>
5.1 Environment.....	63
5.1.1 Wild species as environmental indicators and markers of human activities .....	63
5.2 Interpreting the faunal assemblages from Sand .....	64
5.2.1 Spatial analysis.....	64
5.2.1.1 Archaeological observations and animal bones from Sand 1 .....	64
5.2.1.2 Archaeological observations and animal bones from Sand 2 .....	65
5.2.1.3 Archaeological observations and animal bones from Westwall area.....	65
5.2.1.4 Summary.....	67
5.2.2 The socio-economic organisation of Sand .....	68
5.2.2.1 The role of the wild species in the economic organisation of Sand .....	68
5.2.2.2 Domesticated species as markers of provision - comparison with other representative sites .....	69
5.2.2.2.1 The system of provision and the economic organisation of Sand.....	72
5.3 Bridging archaeozoology and archaeology: unravelling the unique character of Sand.....	73
5.4 Historical testimony: <i>Res gestae Saxonicae</i> by Widukind of Corvey.....	74
5.5 Animal bones and history.....	75
<b>Bibliography .....</b>	<b>77</b>
<b>Appendixes.....</b>	<b>87</b>
Abbreviations for the following tables.....	87
<b>Appendix A. Tables of Quantification .....</b>	<b>88</b>
<b>Appendix B. Tables of Measurements.....</b>	<b>99</b>
<i>Bos primigenius</i> f. <i>taurus</i> .....	99
<i>Capra aegagrus</i> f. <i>hircus</i> .....	113
<i>Sus scrofa</i> f. <i>domestica</i> .....	117
<i>Equus ferus</i> f. <i>caballus</i> .....	123
<i>Canis lupus</i> f. <i>familiaris</i> .....	126
<i>Gallus gallus</i> f. <i>domestica</i> .....	127
<i>Bison bonasus</i> .....	129
<i>Bos primigenius</i> .....	131
<i>Cervus elaphus</i> .....	132

<i>Capreolus capreolus</i> .....	138
<i>Alces alces</i> .....	141
<i>Sus scrofa</i> .....	142
<i>Ursus arctos</i> .....	149
<i>Castor fiber</i> .....	151
<i>Martes martes</i> .....	153
<i>Sciurus vulgaris</i> .....	155
<i>Lepus europaeus</i> .....	157
<i>Lutra lutra</i> .....	158
<i>Mustela putorius</i> .....	159
<i>Cricetus cricetus</i> .....	160
<i>Erinaceus europaeus</i> .....	161
