

## Table of Contents

<b>List of Figures</b> .....	<b>v</b>
<b>Chapter 1 Setting the Scene</b> .....	<b>1</b>
Introduction.....	1
Interpretations of the appearance of hillforts .....	1
Immigration.....	1
Political and social instability: defence or display? .....	1
A central place .....	2
Approaches to hillfort research.....	3
Landscape analysis-systems theory.....	3
The role of enclosures within a hillfort system, is there a difference? .....	4
Typologies and classification systems.....	4
Landscape analysis – hillfort location.....	7
The enhancement of earlier approaches to hillforts within the landscape.....	8
<b>Chapter 2 Methodology and Research Questions</b> .....	<b>11</b>
The significance of the application of GIS-based analysis to hillfort location and morphology.....	11
The significance of a multi-regional approach to hillfort location and morphology .....	11
Initial methodological stages: test area selection and the acquisition of a DTM.....	11
Test area sampling .....	11
The acquisition of Digital Terrain Models .....	12
Approaches .....	12
Site morphology in relation to topography.....	12
Method of investigation.....	12
Visibility .....	13
Movement.....	19
Movement AND visibility .....	20
Conclusion. ....	22
<b>Chapter 3 Ceredigion</b> .....	<b>23</b>
Introduction.....	23
Data.....	23
Introduction to the sites.....	23
Physical relationship of the hillfort morphology and location with the landscape topography.....	29
Image.....	38
Correct Pathways .....	49
Morphologically induced correct pathways .....	49
Slope-based correct pathways .....	51
Visible correct pathways .....	54
Blind correct pathways.....	57
The wider archaeological context.....	73
Conclusion. ....	78
<b>Chapter 4 Multi-regional GIS-based Analysis of Hillfort Location and Morphology</b> .....	<b>79</b>
Introduction to the test areas .....	79
Dartmoor .....	79
Aberdeenshire.....	79
The Gower.....	86
Warminster .....	91
Summary .....	91
Physical relationship of the hillfort morphology and location with the landscape topography.....	97
Summary .....	114
Image.....	114

Summary .....	134
Correct pathways .....	140
Morphologically defined correct pathways .....	141
Slope-based correct pathways .....	141
Visible correct pathways .....	145
Blind correct pathways .....	147
The wider archaeological context.....	151
Summary .....	159
Conclusion. ....	162
<b>Chapter 5 Conclusion .....</b>	<b>214</b>
Introduction.....	214
Physical relationship of hillfort morphologies and locations with the landscape topography .....	214
Ostentatious and adequate responses to landscape qualities .....	215
Topographic and morphological prominence .....	216
Visual prominence and the definition of hillforts .....	217
The falsification of images through disproportionate vallation sequences.....	217
Visually open and closed hillforts.....	218
Correct pathways .....	219
Beyond movement, visibility and topography .....	220
Physical associations with the past.....	220
Wider chronological picture .....	220
Concluding remarks .....	221
<b>Chapter 6 GIS Approaches and British Hillforts – Lessons Learnt and Future Prospects .....</b>	<b>222</b>
Revisiting the aims and objectives.....	222
A critical analysis of the methodology and data .....	222
Does the application of GIS-based analysis enhance Driver’s non-GIS-based analysis? .....	223
The physical relationship between hillfort morphology and topography .....	223
Image.....	223
Correct pathways .....	224
The step forward and future research prospects .....	225
<b>Bibliography .....</b>	<b>226</b>
